

# RAINBOW CANYONS AMATEUR RADIO CLUB

ARRL SPECIAL SERVICE CLUB

Website: [www.netutah.com/rcarc](http://www.netutah.com/rcarc)

Issue 002

February 2003

## This Month club meeting

The subject for February will be "Packet radio revisited". Ken Oliver will be the presenter. He will also introduce another version of Internet radio, similar to IRLP but easier, he said.

	News Letter	\$183.65
	Total Expenses	\$189.51
	General Fund	\$814.38
	Hamfest Fund	\$1,622.07
Ending Balance		\$2,436.45

### President's Message

Hello again fellow Hams!!

Great news on the Internet Radio Linking Project! (IRLP) Don (WA7GTU) has the computer and repeater in hand to get that project started. Terry (KD7 TTT) has agreed to assist Don with the project. The repeater is in the 440 band, so that is where it will go on line. We may change it over to the 2 meter band later.

Shaun's school project is moving forward, but still has a few bugs that will have to be worked out on the HF. I donated 35' of RG213 to get his 2 meter on line at the school. Ken (W7 KBM) will install coax and the antenna on the school roof.

We need new blood in amateur radio to keep us on our toes and to grow. We now have two teams that will introduce ham radio to 14-18 year old Scouts. They will provide a merit badge service and recruit at the same time. Hats off to the Larry (KC7VAV) & Shaun (KD7RFN) and Glen (KD7EPQ) & Russ (N7BO) teams!!! We shall also provide training for all that are interested in getting their amateur ticket.

Dick (K7ZI) has been working on activities for our club meetings. He has both educational and fun activities scheduled. As soon as we can get them all worked out, I will print a calendar for all of you. If you have an idea for a club night activity, please call Dick soon before we print the calendar.

Happy Hamming!!

Jim—N7JHC
