Issue 003

March 2003

Club Night Program

Club Meeting
7:30 PM
Enoch City Office
900 E MIDVALLEY RD
On the third Tuesday of each month

We shall start our "Electricity 101" class of instruction that will lead into the " Use of a Multi-meter 101". Bring your meter to the meeting please.

 **Web Site** 
www.rcarc.info

Have you had a chance to check out the web site? If you have not, go and see what you think. Tell us what you think. If you have any Ideas, we want them! Just let us know what you would like to see on it and we will do our best to get it for you. Remember it is a young web page, and in the growing mode, so help us out. It is your web page and your input is very important.

One of the features that is on the web site is Vanity E-mail. If you would like to have a call sign E-mail just to the web site and fill out the form. There are neat features there as well, check it out.

President's Message

Hello fellow Hams!

We will discuss the Community Emergency Response Team (CERT) concept during our March meeting and vote on being involved. Please be at the club meeting to express your ideas and feelings on the matter.

I am negotiating for a communication trailer for club use. I in vision putting 2 meter, 440, & HF rig's into it for club use, as well as emergency communication during a disaster. I hope to know if we can get it by club meeting. It would be available for small groups (2-6) of club members to work HF. More information on the trailer will come in the future.

I have not heard anything from Don or Terry on the IRLP project. Please come to club meeting with an update, guys!

HAPPY HAMMING!!!!

Jim---N7JHC
